Here are the fractions of people surveyed in each town that prefer paper:

Springfield: $\frac{40}{100}$ This is more than 25% because 40 is more than 25% of 100. (25% of 100 is 25.)

Chester: $\frac{95}{120}$ This is more than 25% because 95 is more than 25% of 120. (25% of 120 is 30.)

Greenville: $\frac{15}{65}$ This is less than 25% because 15 is less than 25% of 65. (15 is 25% of 60, so it is less than 25% of 65.)

Arlington: $\frac{40}{75}$ This is more than 25% because 40 is more than 25% of 75. (40 is 25% of 160, so it is more than 25% of 75.)
